

Imtiyaz Tariq

Skills/Competencies

- **PLM:** SAP PLM, Windchill PLM.
- **Languages/Frameworks:** SAP ABAP, Java, Spring boot, C, ASP.Net Core MVC, JavaScript, React, SQL, Microservices, Azure IOT.
- **Migration tools:** Talend Open Studio.
- **Experience:** 2+ years.
- Possesses a strong business acumen alongside technical proficiency, contributing to effective communication and collaboration with stakeholders within PLM domain.

Summary

- Skilled professional with expertise in SAP PLM and Windchill PLM, complemented by proficiency in SAP ABAP.
- Built a custom data extraction utility in ABAP to extract DIR metadata in bulk. The data was selected from the tables and after processing was written to a csv file.
- Built a custom DIR originals/attachments extraction utility that extracted the originals and stored them on the file system to reduce latency. From file system the data was moved to a shared drive location.
- Transformed the raw data from source to make it suitable to be loaded into the target system using Talend Open Studio.
- Built a data comparison utility to compare the pre-load and post-load data using java. The reports generated gave all the discrepancies between the two sets of data thus saving a lot of manual effort.
- Experienced in streamlining processes and enhancing efficiency within PLM environments using technical prowess.
- Proficient in utilizing technologies such as React, JavaScript, ASP MVC Core, and Azure IOT using which accomplished designing and developing a full-stack, end-to-end air management system app.
- Demonstrates a well-rounded skillset encompassing both PLM expertise and modern software development capabilities.
- Demonstrated expertise in Windchill through the creation and utilization of custom Java utilities, further enhancing PLM processes and demonstrating a deep understanding of the platform.

Education

- B. E. – Mechanical engineering from Dayananda Sagar Academy Of Technology And Management, Bangalore - First class with distinction
